Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

The information referred to in the information disclosure statement filed February 20, 2004 has been considered.

Priority

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on September 30, 2002. The certified copy of the priority document has been provided.

Specification

The specification is objected for including the following informalities: Lines 15 to 16 on page 2 are grammatically incorrect. Note the recitation "may be transformed or even broken due being applying the unreasonable load". Line 20 on page 2 if grammatically incorrect. Note the recitation "the member for the locking the slide rail". Line 7 on page 9 is grammatically incorrect. Note the recitation "extends and forms arm portion". Page 10 includes inconsistent assignment of reference character "52".

Applicant is reminded of the proper language and format for an abstract of the disclosure.

Art Unit: 3636

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

The abstract of the disclosure is objected to because it includes reference to "the invention". Correction is required.

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "85" (see line 18 on page 13). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3636

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, it is unclear if Applicant intends to positively claim the combination of a walk-in apparatus and a vehicle seat, or the subcombination of a walk-in apparatus for use with a vehicle seat. Line 1 appears to set forth the subcombination. Line 2 appears to set forth the combination. Clarification in the claim language is required. In line 3 of claim 1, "the upper rails" lack proper antecedent basis. In line 11 of claim 1, it is unclear if reference to "the vehicle" is intended to be "the vehicle seat", as "the walk-in apparatus of the vehicle" lacks proper antecedent basis. Claims 2-4 are indefinite since each depends from an indefinite claim.

Allowable Subject Matter

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Claims 2-4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. A seating assembly with a foldable backrest and a slidable seat
